SENDS TELEGRAM TO CALIFORNIA

President Gives Reasons Why He Asks for Support.

TAKES SLAM AT ROOSEVELT

Through Inability to Make a Personal Campaign in Far Western State Chief Executive Wires Men and Women Voters His Arguments for Their Support in Coming Presidential Primary.

Washington, May 13.—Unable to cross the continent to campaign in California, President Taft sent by telegram to the men and women Republicans of that state his arguments for support in the presidential primary election on Tuesday.

The president's telegram was sent to Colonel Charles M. Hammond, manager of the Taft forces in San Francisco and a brother-in-law of Colonel Roosevelt. It was also sent to P. A. Stanton, the Taft manager at Los Angeles.

In the message President Taft reviewed the achievements of his administration when he asserted that Colonel Roosevelt was not giving him a square deal, but was appealing to class hatred and forcing sham issues. The telegram in full follows:

"On the eve of your presidential primary in California I venture to appeal to the Republican men and women who exercise the franchise to consider fairly and well the legislative and executive achievements of my administration, and especially those which have affected California, and say whether they do not deserve approval by the people of California.

Taft Refers to Record.

"In the matter of the tariff, the Panama-Pacific exposition, conservation, in the increase of our international and Philippine trade, in the employers' liability act, in the more drastic and complete regulation of interstate commerce, in the postal savings bank bill, in the mining bureau bill for the health and wealth of the miners, in the establishment of a tariff commission, in the change from a deficit of $50,000,000 to a surplus of $40,000,000, in the corporation tax, in the children's bureau bill for the health and welfare of children, in the appointment to the children's bureau of Miss Julia C. Lathrop, one of the ablest women of America; in the making of peace treaties with England and France, which have been emasculated through the influence of Mr. Roosevelt and his campaign manager, Senator Dixon, and the Democratic members of the senate; in the effective prosecution of the work of building and completing the Panama canal, I submit a record is formed that entitles this administration to the support of the Republican men and women of California, and that it is progressive in the highest degree.

"This administration has shown no favor to wrongdoers. It has enforced every law on the statute books. It prosecuted the sugar frauds, the customs frauds, their rebates, and it has brought suit against every trust against which there was evidence of its violating the 'Sherman law,' and this includes the steel trust and the harvester trust, which were treated as good trusts under Mr. Roosevelt, and entitled to immunity after a threat by Mr. George W. Perkins that the prosecution of such trusts would bring about a fight by them with the administration. Mr. Perkins is now one of the chief contributors to Mr. Roosevelt's political fund.

Employers' Liability Bill.

"The last important measure which I have urgently recommended to congress, which has passed the senate and is now pending in the house of representatives, is the workmen's compensation bill, which changes altogether the policy of the law with reference to the liability of the employer to the employe on interstate commerce railroads and gives an insurance for every employe against the dangers of his employment by requiring the employer to indemnify the employe against injury received in the employment not brought about by his will, and voluntarily accounts and fixes a reasonable compensation, graduated according to regular tables and proportioned to the extent of the injuries and the earning capacity of the employe injured.

"In the opposition which Mr. Roosevelt is now making to this administration he is not giving me a square deal, as I have shown by undoubted record proof. He is appealing to class hatred and forcing sham issues in such a way that his success would be a real detriment to the public interest and a dangerous departure from a wise tradition, which he himself has recognized, that limits a citizen to two terms in the presidency."

Committee Plans Deep Inquiry Into Archbald Charges.

NAMES BEING KEPT SECRET

Deputy Sergeant-at-Arms of the House Leaves Washington for Several Points in Pennsylvania to Serve Subpoenas on Unknown Witnesses. Inquiry Develops Circumstances Not Mentioned in the Original Charges.

Washington, May 13.—Investigation into charges against Judge Robert W. Archbald of the commerce court by the judiciary committee of the house will be prolonged. The committee determined to summon many more witnesses.

The inquiry has developed circumstances not mentioned in the original charges. Certain documents have been turned over to the committee since the attorney general delivered the papers in his possession. These facts have caused the committee to determine to probe deeply into the case.

A deputy sergeant-at-arms of the house left for Scranton and other places in Pennsylvania to serve subpoenas on witnesses whose names were not disclosed. It is the determination of the committee to call W. A. May, superintendent of the Erie railroad's coal properties, who gave to E. J. Williams and Judge Archbald an option on the Katydid culm bank, as soon as possible and to inquire into the allegation that Judge Archbald solicited an option on that property as early as March 31, 1911, several months before he sent Williams to May with a letter of introduction and finally procured the option.

When May was asked Saturday for the letter of introduction that Williams had brought to him from Judge Archbald he procured a letter the existence of which was not known to the attorney general or the committee. It was dated March 31 and was not the letter the committee asked for. In that letter the judge had asked if the Katydid property was for sale and, if so, what price could the company fix on it. May turned over to the committee other correspondence that is not in the original record.

Witnesses have been subpoenaed to appear as late as a week from next Tuesday.

The committee contemplates taking the testimony of Charles E. Cotterill, a clerk for the interstate commerce commission, who took the notes on the original charges against Judge Archbald when W. P. Boland disclosed them to Commissioner B. H. Meyer. These notes were taken to President Taft and formed the basis for the investigation begun by the department of justice last February.

Among new witnesses summoned is G. F. Brownell, general counsel and first vice president of the Erie railroad. According to Edward J. Williams, Judge Archbald sought Brownell's influence in negotiations for the Katydid culm bank option after Captain May had declined to give the option.

FAVORS HEALTH MARRIAGE

Dr. Hillis Advocates Law Making Certificates Necessary.

Chicago, May 13.—Dr. Newell Dwight Hillis of Plymouth church, Brooklyn, addressing the Sunday Evening club here, advocated marriage laws providing for a health certificate, such as have been recommended by Dean Walter T. Sumner of Saints Peter and Paul cathedral, Chicago.

Dr. Hillis attributed the rapid advance of the German empire during the last decade to the scientific handling of great national issues and the universal education of its citizens in scientific lines.

"The time has come for men to speak out on the great questions of social hygiene in this country," said Dr. Hillis. "The frightful consequences of man's transgressions should be so forcibly presented that the young men of the United States would take them to heart seriously.

"Young men must learn that nature won't forgive. I am lifting up my voice on this, one of the most important questions of the hour, so that you young men will take heed and make your life as white as that of the girl you expect to marry."

FIRST VICTIMS OF SEASON

Four Twin City People Drown in the Mississippi.

St. Paul, May 13.—Four residents of the Twin Cities were drowned in the Mississippi river in a series of accidents, the two from St. Paul being the first victims here of the open season. The list is as follows:

Alphonse Frey, thirteen years old, St. Paul; Joseph Pahn, forty-five years old, South St. Paul; George Moline, twenty years old, Minneapolis; Frank Lyons, twenty-three years old, Minneapolis.

SOCIALISTS IN CONVENTION

Will Name Candidates for President and Vice President.

Indianapolis, May 13.—With 250 delegates the Socialist national convention was organized in this city. Rules and an order of business were adopted and committees are to be elected. The convention will formulate its platform on Wednesday and Thursday and on Friday will nominate candidates for president and vice president of the United States. One of the most important questions to be determined is the formal attitude of the party toward the Industrial Workers of the World.

"Conservative Socialists will demand that the convention go on record as denouncing the methods of the Industrial Workers," said Congressman Victor L. Berger of Wisconsin, a member of the executive committee. "Ten to one of the delegates are opposed to 'direct action' and other violent principles of the Industrial Workers. The Socialist party cannot afford to continue to be embroiled with this riotous organization. There has been too much of this on the Pacific coast and elsewhere."

REVISION OF IRON AND STEEL SCHEDULE

Senate Will Be Busy on Tariff Changes This Week.

Washington, May 13.—A variety of important measures crowd the congress program this week.

The discussion of the revision of the iron and steel schedule of the tariff law bids fair to occupy most of the senate's attention, with a possibility of the Democrats and progressive Republicans getting together and forcing adoption of the Cummins' compromise bill early next week.

The house investigating committees resume activity. These include the judiciary committee's inquiry into the charges against Judge Archbald of the commerce court and the agricultural committee's consideration of attacks on federal meat inspection methods.

The proposed act to give effect to the treaty between the United States, Great Britain, Japan and Russia, for the protection of the fur seals and sea otter on the North Pacific ocean will be brought up in the senate by Senator Lodge, with a view to immediate action. The convention was signed last July and the house already has passed the bill to make it operative, the senate foreign relations committee agreeing to it in modified form.

TRAIN STRIKES AUTOMOBILE

Two Persons Killed in Railway Crossing Accident.

Warren, Minn., May 13.—Two persons were killed almost instantly, a third is dying and the fourth member of a party of autoists is seriously injured as a result of an accident in Argyle, nine miles north of here. The auto and occupants were struck by a Great Northern freight locomotive. The dead are: Miss Lou Tiedt, thirty years old, Argyle, and Miss Anna Meissner, Euclid, Minn.

The autoists were crossing the track half a mile north of the village of Argyle when they collided with the locomotive, which was running at about twenty miles an hour.

CRY FOR BONES OF PAPOOSES

Squaws Deposited Them in Trees Sold to White Men.

Guthrie, Okla., May 13.—The women of the Euchee band of the Creek Indian tribe are in mourning and are undergoing several weeks of weeping because white men who recently purchased the Indian lands destroyed the bones of their papooses.

Since earliest times the Euchees have deposited the bodies of their dead children in hollow trees and fastened boards or bark over the openings. Recently white men bought the Euchee lands in Western Creek county and while clearing the land tore down the grave trees and burned them.

QUESTION OF A FLOP AT CHICAGO

Reports That Delegates May Refuse to Obey Instructions.

RESULT WOULD BE UNCERTAIN

House of Representatives Never Before Had Two of Its Members Candidates For the Presidency—Standards of Admission to Annapolis Naval Academy Too High.

By ARTHUR W. DUNN.

Washington, May 13.—[Special.]—Are the southern delegates going to "stay put?" is a question that is agitating the friends of Mr. Taft. With the reports in circulation that this or that bunch of delegates from the south intend to "jump for Roosevelt" and threats that delegates elected for Roosevelt in Pennsylvania and Illinois, but who are in reality Taft men, will even up by refusing to obey primary instructions, we have a situation of considerable speculative interest politically.

The argument of the southern men is that since they were elected and instructed to vote for Taft there has been a great change of sentiment in their states and that Roosevelt is now the choice of the majority. If there should be any considerable "jumping" back and forth by delegates at Chicago the situation would still become more complicated, and no one could guess the result.

Curious Condition.

No one recalls a time when there were two candidates for president in the house of representatives. The situation is more interesting because those two candidates are the principal men in the house, one being the speaker and the other the floor leader. For years these men have worked side by side in party affairs, each helping the other. So far as one can see, they are now working together for the benefit of their party. They are frequently in close association and have confidential conferences over affairs in the house. When Clark goes away for a few days he calls Underwood to preside as speaker pro tem. Underwood is called upon to preside in committee of the whole when there are difficult questions to decide.

No one would guess that Speaker Clark and Leader Underwood are presidential rivals from appearances in the house and about the capitol.

Standards Too High.

No one seems to understand why so many bright young men fail to pass the examinations for admission to Annapolis when they get into other schools and colleges. The trouble is that the standards are set by men who do not know the boy mind and the boy capacity. Theorists in mathematics set traps and puzzles and others work out problems and questions which would baffle a college graduate. That is why only forty-three out of every 100 candidates for admission were able to pass.

The Naval academy, conducted by naval officers, ought to know just what it wants in the way of students for officers in the future, but every student must be expert in a dozen different things which should be specialized. Navigation, steam, electricity, engineering and ordnance are all highly specialized studies or should be, but the student at Annapolis must be proficient in all of them. He must also learn them as they are now, not as they were in the days when the present instructors learned them.

Splitting a Hair.

It was on Friday, and the senate was in that curious period of fiction which continued a "legislative day" over several days in order to comply with a "unanimous consent agreement which is sacred."

Said Senator Sutherland of Utah, "I move that the senate stand in recess until 11:50 o'clock tomorrow."

Senator Bacon of Georgia, "There is no 'tomorrow' in the legislative day."

"If the senator will give me a parliamentary word which will fit I will use it," replied Sutherland.

"The senator will have to say 'Saturday,'" replied Bacon.

And so the senate took a recess until the next day.

Ancient Postoffices.

Congressman Ayres of the Bronx district in New York gave historical facts about postoffices which few members of the house knew until they read his speech. "The postman is an older character than the sphinx," said Ayres and then traced the history and development of post service. The conclusion of Ayres as a result of his researches was also interesting. He believes that modern times demand a worldwide postal service, covering the whole business of public transportation and transmission so that all parts of the earth may be reached by the weakest hand.

All Make Mistakes.

Dr. Foster of Illinois was showing opposition to a bill which had come from Henry Clayton's judiciary committee. Finally in a weary manner the Alabama man said: "It's possible we have made mistakes, but this bill is not one of them. Lawyers as well as doctors make mistakes, but we do not always hear of the doctors' mistakes."

Electricity cannot be frozen; neither can it be adulterated. It works equally well on hot and cold days.

BOTH ARMIES LOSE HEAVILY IN BATTLE

Mexican Regulars Appear to Be Getting Upper Hand.

Conejos, Mex., May 13.—Twelve hours of brisk fighting on the desert plains 300 miles south of the American border between a force of 5,000 rebels under General Orozco and an equally strong body of federals under General Huerta resulted in a decided advantage to the government.

The fighting began at daybreak and at nightfall the sandy Mesas between here and Yermo, fourteen miles north, where the insurrectos were gradually forced back, were covered with dead and wounded.

Nearly five hundred are believed to have been killed and wounded on both sides. A courier reported that General Trucy Aubert, the federal commander, had been shot in the leg.

The rebels abandoned ten cannon and much ammunition in their retreat.

General Joaquin Tellez, who had been stationed in the rear of Huerta's vanguard, was sent around to the eastward to flank the rebels and cut off their retreat. Federal headquarters assert the rebels are completely surrounded and that the second day of fighting will prove equally decisive.

Should the advantage gained be followed by equal success the federal leaders are confident it will mean the annihilation of the insurrecto army.

TWO DIE IN CHICAGO STORM

Several Injured and Much Property Damaged.

Chicago, May 13.—A rain and wind storm which swept over Chicago indirectly caused the death of two men and the injury of several others.

Patrick Murray, fifty-three years old, and an unidentified man about twenty-eight years old were run down by street cars while blinded by the sweeping rain. Both died at hospitals.

Several pedestrians were struck by automobiles and street cars and injured.

The wind reached a velocity of forty-four miles an hour, uprooted trees, blew down many signs and tore scores of boats from their moorings along the lake shore.

MINNESOTA IS FOR ROOSEVELT

Colonel Secures Twenty-two of Twenty-four Delegates.

TWO GO TO LA FOLLETTE

Caucuses and Preferential Primaries in Nearly All Counties of the State Indicate That Former President Has Carried Eight of the Nine Congressional Districts and Will Get the Six Delegates at Large.

St. Paul, May 13.—Roosevelt made almost a clean sweep of Minnesota in the primaries and is assured of a delegation of twenty-two from this state.

Taft carried a few counties that did not have preference primaries, but they were scattered, so he will not carry a single district.

La Follette carried the Ninth district, thus securing two votes.

Ramsey county, supposed Taft stronghold, went for Roosevelt, giving him 4,047 in the preference vote to 1,044 for Taft and 1,274 for La Follette.

Duluth went for Roosevelt almost as strongly as Ramsey did, electing practically all the Roosevelt delegates to the county convention.

Roosevelt will have twenty-two of the Minnesota delegation of twenty-four at the Chicago convention next June as a result of the primaries and caucuses held in about seventy counties. Not only will the six delegates at large to be elected by the state convention at Minneapolis next Thursday be instructed for him, but the returns received show that he will have the delegates elected by eight of the nine district conventions to be held next Wednesday.

The biggest surprise came in Ramsey county, where the Taft men had been hoping for victory. Over 6,000 votes were cast and of these Roosevelt received nearly two-thirds, La Follette running second and Taft third. Roosevelt carried every ward in the city and Taft ran second in only three wards.

HIS SON'S PACE KILLS HIM

Seventy-Year-Old Man Drops Dead After "Night Out."

Chicago, May 13.—James F. Irwin, seventy years old, dropped dead after a "night out" with his forty-eight-year-old son, during which the two had been arrested, lodged in a cell and released on bonds, and after the father had remarked that the pace set by his son was too much for him.

The older Irwin came to Chicago from Rensselear, Ind., with his son, Schuyler C. Irwin. They were arrested. While being released on bonds the old man said:

"My watch is gone, my glasses are gone, I've lost my character and my self-respect. I don't think I have anything to live for. This is a pretty hard experience to stand. I was never arrested before in my life."

AGREE TO CHINESE LOAN

Six Powers to Supervise Expenditure of $50,000,000.

Peking, May 13.—The minister of finance and the bankers representing the six powers, the United States, Great Britain, France, Germany, Russia and Japan, have arranged the terms of a series of advances to the Chinese government totaling $50,000,000 against treasury bills redeemable within one year by the proceeds of the big loan. There will be supervision over the expenditures jointly by foreign and Chinese auditors. If the scheme is approved by President Yuan Shi Kai and the national council it will be tantamount to a defeat of Premier Tang Shao Yi, who persists in opposing it.

It is pointed out by those identified with the scheme that the country is a veritable powder magazine and that the unpaid soldiers threaten an outbreak which can only be avoided by payment of their wages.

FOUR FIGHTING FOR OHIO

Presidential Aspirants to Stump the State This Week.

Columbus, O., May 13.—Until the dawn of the primary election, May 21, there is scarcely a cross roads station in this state so unimportant numerically that it does not expect to entertain at least one presidential possibility. Four seekers after the nomination for the presidency, President Taft, Colonel Roosevelt, Governor Harmon and Senator La Follette, will tour the state, while United States senators, cabinet members and department heads are figuring on speaking.

Editor Severely Injured.

New York, May 13.—Carlton Garretson, editor of Judge and Leslie's Weekly, was severely injured here when a horse which he was riding reared and threw him to the pavement. His neck was dislocated, his face and head badly lacerated and he sustained internal injuries. His condition is serious.

BRAVADO COSTS FOUR LIVES

Young Men Drown Trying to Shoot Over Small Dam.

Sioux Falls, S. D., May 13.—The Big Sioux river in this city was the scene of the drowning of four young men. The dead are: Matt Yost, William Dahl, John Needham and Guy Beck.

In a spirit of fun and daring the four young men, who were in two boats, two in each, attempted to shoot over a small dam in the heart of the business district. The fall of water over the dam is not more than two or three feet, but owing to the high water in the river the water for some days has been rushing over the dam at lightning speed.

The first boat got over the dam, but the second one capsized when it plunged into the water below the dam, and the two occupants were thrown into the swirling water. Seeing the danger of the two struggling men, the occupants of the other boat went to their rescue. They had succeeded in saving one of the drowning men and had partly drawn him into the boat when their own craft was capsized and all four young men were struggling in the water, drowning before assistance could reach them.

FLOOD CONDITIONS IMPROVE

Reports From All Points North of New Orleans Encouraging.

New Orleans, May 13.—Another day of sunshine in New Orleans and throughout Southern Louisiana lent an improved aspect to Mississippi river flood conditions. State and federal engineers announced that the few reports received from points north of New Orleans were encouraging, although the situation at Baton Rouge would demand continued hard work to prevent a break in the front levee.

A fall of two-tenths of a foot in the Mississippi river at New Orleans was recorded in twenty-four hours, the gauge registering 21.3. At Baton Rouge there was a rise of nearly a tenth of a foot.

CALIFORNIA PRIMARY NEXT

Preferential Elections Will Take Place on Tuesday.

San Francisco, May 13.—California will decide at the primaries next Tuesday whether the presidential preference is Roosevelt, Taft or La Follette as Republican candidate, or Clark or Wilson as Democratic candidate. The state sends twenty-six delegates to the national conventions.

Neither Underwood nor Harmon, the two other Democratic candidates, have directed any organized campaign for votes because of the political complexion of the state. The Republican canvass has attracted far more attention than the Democratic.

North Sea Yields More Fish.

London, May 13.—To the United Kingdom the North sea is the most profitable fishing ground. Last year the value of the fish landed on the northeast coast was $18,703,070. The increase over 1910 was $892,420 and, compared with 1891, the total value of the fish landed in 1911 showed an increase of nearly $10,000,000.

Through Inability to Make a Personal Campaign in Far Western State Chief Executive Wires Men and Women Voters His Arguments for Their Support in Coming Presidential Primary.

Washington, May 13.—Unable to cross the continent to campaign in California, President Taft sent by telegram to the men and women Republicans of that state his arguments for support in the presidential primary election on Tuesday.

The president's telegram was sent to Colonel Charles M. Hammond, manager of the Taft forces in San Francisco and a brother-in-law of Colonel Roosevelt. It was also sent to P. A. Stanton, the Taft manager at Los Angeles.

In the message President Taft reviewed the achievements of his administration when he asserted that Colonel Roosevelt was not giving him a square deal, but was appealing to class hatred and forcing sham issues. The telegram in full follows:

"On the eve of your presidential primary in California I venture to appeal to the Republican men and women who exercise the franchise to consider fairly and well the legislative and executive achievements of my administration, and especially those which have affected California, and say whether they do not deserve approval by the people of California.

Taft Refers to Record.

"In the matter of the tariff, the Panama-Pacific exposition, conservation, in the increase of our international and Philippine trade, in the employers' liability act, in the more drastic and complete regulation of interstate commerce, in the postal savings bank bill, in the mining bureau bill for the health and wealth of the miners, in the establishment of a tariff commission, in the change from a deficit of $50,000,000 to a surplus of $40,000,000, in the corporation tax, in the children's bureau bill for the health and welfare of children, in the appointment to the children's bureau of Miss Julia C. "This administration has shown no favor to wrongdoers. It has enforced every law on the statute books. Perkins that the prosecution of such trusts would bring about a fight by them with the administration. Mr. Perkins is now one of the chief contributors to Mr. Roosevelt's political fund.

Employers' Liability Bill.

"The last important measure which I have urgently recommended to congress, which has passed the senate and is now pending in the house of representatives, is the workmen's compensation bill, which changes altogether the policy of the law with reference to the liability of the employer to the employe on interstate commerce railroads and gives an insurance for every employe against the dangers of his employment by requiring the employer to indemnify the employe against injury received in the employment not brought about by his will, and voluntarily accounts and fixes a reasonable compensation, graduated according to regular tables and proportioned to the extent of the injuries and the earning capacity of the employe injured.

"In the opposition which Mr. Roosevelt is now making to this administration he is not giving me a square deal, as I have shown by undoubted record proof. He is appealing to class hatred and forcing sham issues in such a way that his success would be a real detriment to the public interest and a dangerous departure from a wise tradition, which he himself has recognized, that limits a citizen to two terms in the presidency."

Committee Plans Deep Inquiry Into Archbald Charges.

NAMES BEING KEPT SECRET

Deputy Sergeant-at-Arms of the House Leaves Washington for Several Points in Pennsylvania to Serve Subpoenas on Unknown Witnesses. Inquiry Develops Circumstances Not Mentioned in the Original Charges.

Washington, May 13.—Investigation into charges against Judge Robert W. Archbald of the commerce court by the judiciary committee of the house will be prolonged. The committee determined to summon many more witnesses.

The inquiry has developed circumstances not mentioned in the original charges. Certain documents have been turned over to the committee since the attorney general delivered the papers in his possession. These facts have caused the committee to determine to probe deeply into the case.

A deputy sergeant-at-arms of the house left for Scranton and other places in Pennsylvania to serve subpoenas on witnesses whose names were not disclosed. It is the determination of the committee to call W. A. May, superintendent of the Erie railroad's coal properties, who gave to E. J. Williams and Judge Archbald an option on the Katydid culm bank, as soon as possible and to inquire into the allegation that Judge Archbald solicited an option on that property as early as March 31, 1911, several months before he sent Williams to May with a letter of introduction and finally procured the option.

When May was asked Saturday for the letter of introduction that Williams had brought to him from Judge Archbald he procured a letter the existence of which was not known to the attorney general or the committee. It was dated March 31 and was not the letter the committee asked for. In that letter the judge had asked if the Katydid property was for sale and, if so, what price could the company fix on it. May turned over to the committee other correspondence that is not in the original record.

Witnesses have been subpoenaed to appear as late as a week from next Tuesday.

The committee contemplates taking the testimony of Charles E. Cotterill, a clerk for the interstate commerce commission, who took the notes on the original charges against Judge Archbald when W. P. Boland disclosed them to Commissioner B. H. Meyer. These notes were taken to President Taft and formed the basis for the investigation begun by the department of justice last February.

Among new witnesses summoned is G. F. Brownell, general counsel and first vice president of the Erie railroad. According to Edward J. Williams, Judge Archbald sought Brownell's influence in negotiations for the Katydid culm bank option after Captain May had declined to give the option.

FAVORS HEALTH MARRIAGE

Dr. Hillis Advocates Law Making Certificates Necessary.

Chicago, May 13.—Dr. Newell Dwight Hillis of Plymouth church, Brooklyn, addressing the Sunday Evening club here, advocated marriage laws providing for a health certificate, such as have been recommended by Dean Walter T. Sumner of Saints Peter and Paul cathedral, Chicago.

Dr. Hillis attributed the rapid advance of the German empire during the last decade to the scientific handling of great national issues and the universal education of its citizens in scientific lines.

"The time has come for men to speak out on the great questions of social hygiene in this country," said Dr. Hillis. "The frightful consequences of man's transgressions should be so forcibly presented that the young men of the United States would take them to heart seriously.

"Young men must learn that nature won't forgive. I am lifting up my voice on this, one of the most important questions of the hour, so that you young men will take heed and make your life as white as that of the girl you expect to marry."

FIRST VICTIMS OF SEASON

Four Twin City People Drown in the Mississippi.

St. Paul, May 13.—Four residents of the Twin Cities were drowned in the Mississippi river in a series of accidents, the two from St. Paul being the first victims here of the open season. The list is as follows:

Alphonse Frey, thirteen years old, St. Paul; Joseph Pahn, forty-five years old, South St. Paul; George Moline, twenty years old, Minneapolis; Frank Lyons, twenty-three years old, Minneapolis.

SOCIALISTS IN CONVENTION

Will Name Candidates for President and Vice President.

Indianapolis, May 13.—With 250 delegates the Socialist national convention was organized in this city. Rules and an order of business were adopted and committees are to be elected. The convention will formulate its platform on Wednesday and Thursday and on Friday will nominate candidates for president and vice president of the United States. One of the most important questions to be determined is the formal attitude of the party toward the Industrial Workers of the World.

"Conservative Socialists will demand that the convention go on record as denouncing the methods of the Industrial Workers," said Congressman Victor L. Berger of Wisconsin, a member of the executive committee. "Ten to one of the delegates are opposed to 'direct action' and other violent principles of the Industrial Workers. The Socialist party cannot afford to continue to be embroiled with this riotous organization. There has been too much of this on the Pacific coast and elsewhere."

REVISION OF IRON AND STEEL SCHEDULE

Senate Will Be Busy on Tariff Changes This Week.

Washington, May 13.—A variety of important measures crowd the congress program this week.

The discussion of the revision of the iron and steel schedule of the tariff law bids fair to occupy most of the senate's attention, with a possibility of the Democrats and progressive Republicans getting together and forcing adoption of the Cummins' compromise bill early next week.

The house investigating committees resume activity. These include the judiciary committee's inquiry into the charges against Judge Archbald of the commerce court and the agricultural committee's consideration of attacks on federal meat inspection methods.

The proposed act to give effect to the treaty between the United States, Great Britain, Japan and Russia, for the protection of the fur seals and sea otter on the North Pacific ocean will be brought up in the senate by Senator Lodge, with a view to immediate action. The convention was signed last July and the house already has passed the bill to make it operative, the senate foreign relations committee agreeing to it in modified form.

TRAIN STRIKES AUTOMOBILE

Two Persons Killed in Railway Crossing Accident.

Warren, Minn., May 13.—Two persons were killed almost instantly, a third is dying and the fourth member of a party of autoists is seriously injured as a result of an accident in Argyle, nine miles north of here. The auto and occupants were struck by a Great Northern freight locomotive. The dead are: Miss Lou Tiedt, thirty years old, Argyle, and Miss Anna Meissner, Euclid, Minn.

The autoists were crossing the track half a mile north of the village of Argyle when they collided with the locomotive, which was running at about twenty miles an hour.

CRY FOR BONES OF PAPOOSES

Squaws Deposited Them in Trees Sold to White Men.

Guthrie, Okla., May 13.—The women of the Euchee band of the Creek Indian tribe are in mourning and are undergoing several weeks of weeping because white men who recently purchased the Indian lands destroyed the bones of their papooses.

Since earliest times the Euchees have deposited the bodies of their dead children in hollow trees and fastened boards or bark over the openings. Recently white men bought the Euchee lands in Western Creek county and while clearing the land tore down the grave trees and burned them.

QUESTION OF A FLOP AT CHICAGO

Reports That Delegates May Refuse to Obey Instructions.

RESULT WOULD BE UNCERTAIN

House of Representatives Never Before Had Two of Its Members Candidates For the Presidency—Standards of Admission to Annapolis Naval Academy Too High.

By ARTHUR W. DUNN.

Washington, May 13.—[Special.]—Are the southern delegates going to "stay put?" is a question that is agitating the friends of Mr. Taft. With the reports in circulation that this or that bunch of delegates from the south intend to "jump for Roosevelt" and threats that delegates elected for Roosevelt in Pennsylvania and Illinois, but who are in reality Taft men, will even up by refusing to obey primary instructions, we have a situation of considerable speculative interest politically.

The argument of the southern men is that since they were elected and instructed to vote for Taft there has been a great change of sentiment in their states and that Roosevelt is now the choice of the majority. If there should be any considerable "jumping" back and forth by delegates at Chicago the situation would still become more complicated, and no one could guess the result.

Curious Condition.

No one recalls a time when there were two candidates for president in the house of representatives. The situation is more interesting because those two candidates are the principal men in the house, one being the speaker and the other the floor leader. For years these men have worked side by side in party affairs, each helping the other. So far as one can see, they are now working together for the benefit of their party. They are frequently in close association and have confidential conferences over affairs in the house. When Clark goes away for a few days he calls Underwood to preside as speaker pro tem. Underwood is called upon to preside in committee of the whole when there are difficult questions to decide.

No one would guess that Speaker Clark and Leader Underwood are presidential rivals from appearances in the house and about the capitol.

Standards Too High.

No one seems to understand why so many bright young men fail to pass the examinations for admission to Annapolis when they get into other schools and colleges. The trouble is that the standards are set by men who do not know the boy mind and the boy capacity. Theorists in mathematics set traps and puzzles and others work out problems and questions which would baffle a college graduate. That is why only forty-three out of every 100 candidates for admission were able to pass.

The Naval academy, conducted by naval officers, ought to know just what it wants in the way of students for officers in the future, but every student must be expert in a dozen different things which should be specialized. Navigation, steam, electricity, engineering and ordnance are all highly specialized studies or should be, but the student at Annapolis must be proficient in all of them. He must also learn them as they are now, not as they were in the days when the present instructors learned them.

Splitting a Hair.

It was on Friday, and the senate was in that curious period of fiction which continued a "legislative day" over several days in order to comply with a "unanimous consent agreement which is sacred."

Said Senator Sutherland of Utah, "I move that the senate stand in recess until 11:50 o'clock tomorrow."

Senator Bacon of Georgia, "There is no 'tomorrow' in the legislative day."

"If the senator will give me a parliamentary word which will fit I will use it," replied Sutherland.

"The senator will have to say 'Saturday,'" replied Bacon.

And so the senate took a recess until the next day.

Ancient Postoffices.

Congressman Ayres of the Bronx district in New York gave historical facts about postoffices which few members of the house knew until they read his speech. "The postman is an older character than the sphinx," said Ayres and then traced the history and development of post service. The conclusion of Ayres as a result of his researches was also interesting. He believes that modern times demand a worldwide postal service, covering the whole business of public transportation and transmission so that all parts of the earth may be reached by the weakest hand.

All Make Mistakes.

Dr. Foster of Illinois was showing opposition to a bill which had come from Henry Clayton's judiciary committee. Finally in a weary manner the Alabama man said: "It's possible we have made mistakes, but this bill is not one of them. Lawyers as well as doctors make mistakes, but we do not always hear of the doctors' mistakes."

Electricity cannot be frozen; neither can it be adulterated. It works equally well on hot and cold days.

BOTH ARMIES LOSE HEAVILY IN BATTLE

Mexican Regulars Appear to Be Getting Upper Hand.

Conejos, Mex., May 13.—Twelve hours of brisk fighting on the desert plains 300 miles south of the American border between a force of 5,000 rebels under General Orozco and an equally strong body of federals under General Huerta resulted in a decided advantage to the government.

The fighting began at daybreak and at nightfall the sandy Mesas between here and Yermo, fourteen miles north, where the insurrectos were gradually forced back, were covered with dead and wounded.

Nearly five hundred are believed to have been killed and wounded on both sides. A courier reported that General Trucy Aubert, the federal commander, had been shot in the leg.

The rebels abandoned ten cannon and much ammunition in their retreat.

General Joaquin Tellez, who had been stationed in the rear of Huerta's vanguard, was sent around to the eastward to flank the rebels and cut off their retreat. Federal headquarters assert the rebels are completely surrounded and that the second day of fighting will prove equally decisive.

Should the advantage gained be followed by equal success the federal leaders are confident it will mean the annihilation of the insurrecto army.

TWO DIE IN CHICAGO STORM

Several Injured and Much Property Damaged.

Chicago, May 13.—A rain and wind storm which swept over Chicago indirectly caused the death of two men and the injury of several others.

Patrick Murray, fifty-three years old, and an unidentified man about twenty-eight years old were run down by street cars while blinded by the sweeping rain. Both died at hospitals.

Several pedestrians were struck by automobiles and street cars and injured.

The wind reached a velocity of forty-four miles an hour, uprooted trees, blew down many signs and tore scores of boats from their moorings along the lake shore.

MINNESOTA IS FOR ROOSEVELT

Colonel Secures Twenty-two of Twenty-four Delegates.

TWO GO TO LA FOLLETTE

Caucuses and Preferential Primaries in Nearly All Counties of the State Indicate That Former President Has Carried Eight of the Nine Congressional Districts and Will Get the Six Delegates at Large.

St. Paul, May 13.—Roosevelt made almost a clean sweep of Minnesota in the primaries and is assured of a delegation of twenty-two from this state.

Taft carried a few counties that did not have preference primaries, but they were scattered, so he will not carry a single district.

La Follette carried the Ninth district, thus securing two votes.

Ramsey county, supposed Taft stronghold, went for Roosevelt, giving him 4,047 in the preference vote to 1,044 for Taft and 1,274 for La Follette.

Duluth went for Roosevelt almost as strongly as Ramsey did, electing practically all the Roosevelt delegates to the county convention.

Roosevelt will have twenty-two of the Minnesota delegation of twenty-four at the Chicago convention next June as a result of the primaries and caucuses held in about seventy counties. Not only will the six delegates at large to be elected by the state convention at Minneapolis next Thursday be instructed for him, but the returns received show that he will have the delegates elected by eight of the nine district conventions to be held next Wednesday.

The biggest surprise came in Ramsey county, where the Taft men had been hoping for victory. Over 6,000 votes were cast and of these Roosevelt received nearly two-thirds, La Follette running second and Taft third. Roosevelt carried every ward in the city and Taft ran second in only three wards.

HIS SON'S PACE KILLS HIM

Seventy-Year-Old Man Drops Dead After "Night Out."

Chicago, May 13.—James F. Irwin, seventy years old, dropped dead after a "night out" with his forty-eight-year-old son, during which the two had been arrested, lodged in a cell and released on bonds, and after the father had remarked that the pace set by his son was too much for him.

The older Irwin came to Chicago from Rensselear, Ind., with his son, Schuyler C. Irwin. They were arrested. While being released on bonds the old man said:

"My watch is gone, my glasses are gone, I've lost my character and my self-respect. I don't think I have anything to live for. This is a pretty hard experience to stand. I was never arrested before in my life."

AGREE TO CHINESE LOAN

Six Powers to Supervise Expenditure of $50,000,000.

Peking, May 13.—The minister of finance and the bankers representing the six powers, the United States, Great Britain, France, Germany, Russia and Japan, have arranged the terms of a series of advances to the Chinese government totaling $50,000,000 against treasury bills redeemable within one year by the proceeds of the big loan. There will be supervision over the expenditures jointly by foreign and Chinese auditors. If the scheme is approved by President Yuan Shi Kai and the national council it will be tantamount to a defeat of Premier Tang Shao Yi, who persists in opposing it.

It is pointed out by those identified with the scheme that the country is a veritable powder magazine and that the unpaid soldiers threaten an outbreak which can only be avoided by payment of their wages.

FOUR FIGHTING FOR OHIO

Presidential Aspirants to Stump the State This Week.

Columbus, O., May 13.—Until the dawn of the primary election, May 21, there is scarcely a cross roads station in this state so unimportant numerically that it does not expect to entertain at least one presidential possibility. Four seekers after the nomination for the presidency, President Taft, Colonel Roosevelt, Governor Harmon and Senator La Follette, will tour the state, while United States senators, cabinet members and department heads are figuring on speaking.

Editor Severely Injured.

New York, May 13.—Carlton Garretson, editor of Judge and Leslie's Weekly, was severely injured here when a horse which he was riding reared and threw him to the pavement. His neck was dislocated, his face and head badly lacerated and he sustained internal injuries. His condition is serious.

BRAVADO COSTS FOUR LIVES

Young Men Drown Trying to Shoot Over Small Dam.

Sioux Falls, S. D., May 13.—The Big Sioux river in this city was the scene of the drowning of four young men. The dead are: Matt Yost, William Dahl, John Needham and Guy Beck.

In a spirit of fun and daring the four young men, who were in two boats, two in each, attempted to shoot over a small dam in the heart of the business district. The fall of water over the dam is not more than two or three feet, but owing to the high water in the river the water for some days has been rushing over the dam at lightning speed.

The first boat got over the dam, but the second one capsized when it plunged into the water below the dam, and the two occupants were thrown into the swirling water. Seeing the danger of the two struggling men, the occupants of the other boat went to their rescue. They had succeeded in saving one of the drowning men and had partly drawn him into the boat when their own craft was capsized and all four young men were struggling in the water, drowning before assistance could reach them.

FLOOD CONDITIONS IMPROVE

Reports From All Points North of New Orleans Encouraging.

New Orleans, May 13.—Another day of sunshine in New Orleans and throughout Southern Louisiana lent an improved aspect to Mississippi river flood conditions. State and federal engineers announced that the few reports received from points north of New Orleans were encouraging, although the situation at Baton Rouge would demand continued hard work to prevent a break in the front levee.

A fall of two-tenths of a foot in the Mississippi river at New Orleans was recorded in twenty-four hours, the gauge registering 21.3. At Baton Rouge there was a rise of nearly a tenth of a foot.

CALIFORNIA PRIMARY NEXT

Preferential Elections Will Take Place on Tuesday.

San Francisco, May 13.—California will decide at the primaries next Tuesday whether the presidential preference is Roosevelt, Taft or La Follette as Republican candidate, or Clark or Wilson as Democratic candidate. The state sends twenty-six delegates to the national conventions.

Neither Underwood nor Harmon, the two other Democratic candidates, have directed any organized campaign for votes because of the political complexion of the state. The Republican canvass has attracted far more attention than the Democratic.

North Sea Yields More Fish.

London, May 13.—To the United Kingdom the North sea is the most profitable fishing ground. Last year the value of the fish landed on the northeast coast was $18,703,070. The increase over 1910 was $892,420 and, compared with 1891, the total value of the fish landed in 1911 showed an increase of nearly $10,000,000.

The Crosby Courier is to be complimented on its illustrated edition in honor of the leaving of the first ore train from the Crosby mines.

The Pine River Sentinel objects to this being called the "Bloody Sixth" as the district is one of the most peaceable of any of the congressional districts in the state.

The state of Minnesota will send a delegation to the Chicago convention in favor of Roosevelt. The primaries and caucuses held in the various counties on Friday and Saturday gave him an overwhelming majority, nearly a clean sweep being made.

The village of Long Prairie has voted bonds in the sum of $7,000 to enable the town to make improvements at its lighting plant and to build a new water tower which was recently blown up, the vote being six to one in favor of the bond issue.

It is not known whether this is a warning to the court house officials or a weather prediction, but the Pequot Review, from which paper it is taken, is advised that the "rumer" will not be taken seriously until later in the season: "It is rumered that nearly all the county officers now holding office will have opposition this fall if they enter the race for re-election. It look's as though county politics would soon warm up."

The committee from a local church organization was turned down in their request to the school board a Aitkin that they prohibit dancing in the high school auditorium. The school board takes the view that young people will seek entertainment and that the place for providing such entertainment is at the school house where dancing may be regulated by the teachers and where all objectionable features and people may be eliminated. Some sense to the argument, too.

The village council of Pequot has entered into a contract with the Waterous Engine Works for a fire engine and 1,000 feet of hose. Under the new method water will be obtained from a system of cisterns in different parts of the village. With the establishment of this system a new and much lower insurance rate will be obtainable and the people generally in Pequot are commenting the council and the Commercial club of that place for their action in the matter. Heretofore there was practically no fire protection.

Capt. Pascoe, of the Cuyuna-Mille Lacs Mining Co., was in the city Sunday and visited J. F. Dykeman, one of the directors of the company. 24 men are at work at the shaft, which is now 45 feet in ore running 60 per cent. On the stock pile there have been hoisted 600 tons. Capt. Pascoe and friends viisted Barrows and looked at the workings of the Barrows mine of the M. A. Hanna Co.

W. I. Nicolaysen, of Duluth, was in Barrows today with Mike Jenesky, of Virginia, inspecting the town site and the lots. Mr. Jenesky will go into business in Barrows, establishing a general store there. Mr. Jenesky and Joseph Prunjensky, of Virginia, are merchants who are at the head of a Polish settlement which will establish itself in Barrows. 40 lots having been reserved for them at the townsite. Four lots have also been sold to Augen Lauger, manager of the H. P. Nelson Piano Co., of Chicago, and their intention is to construct a building for the sale of pianos, making Barrows their headquarters for the Cuyuna range. On May 20, 21 and 22 W. I. Nicolaysen will conduct a sale of Barrows lots at Hibbing and expects to sell 90 per cent of the remaining lots in the town. He has hired a band, and has had printed 20,000 hand bills in English, Norwegian, Polish, Finn, Austrian and Italian. Free fare will be given to purchasers within as high a radius as 75 miles from Hibbing.

Cincinnati University Proves It Is Not an Institution For the Rich.

Statistics given out by President Charles W. Dabney of the University of Cincinnati show that a large percentage of students come from families in moderate circumstances against the general belief that the institution was made up of students from the families of the rich.

A canvass of a representative body of the students revealed the fact that only 5 per cent of the students come from what could be termed wealthy families. Seventy-five per cent come from families whose income is less than $2,500, a rather unusual circumstance in a municipal institution, such as is the university.

Thirty-five per cent of the student body come from families whose income is less than $1,500. Eighteen per cent come from families whose income is from $2,500 to $7,500. Nineteen per cent of the students are fatherless and are being sent to the university by widowed mothers.

The investigation proves further that 40 per cent of the families having sons or daughters in the university live in rented homes and 60 per cent own their homes.

IS USE OF SLANG PROPER FOR A COLLEGE GIRL?

Wellesley Editress Asks Why Some Mild Words Can't Be Used.

Is slang proper for a college girl? The question sorely puzzles Helen Logan, editress in chief of the Wellesley College News. If brother can use "a few mild swear words," she argues, why cannot sister employ the use of "awfully crazy about," "wild over," "oh, golly," "greasy grind," "pippin," etc.?

Miss Logan's editorial in part follows:

"It is this matter of slang—college slang. Does it give 'spice' to our talk? Does it add to the force of our conversation? Does it make impressive and entertaining our remarks? Perhaps it does. Here at college, especially when you say 'awfully' with a degree more of vehemence than the last speaker, it means ever so much more 'awfully.' But at home, among the people for whom and with whom after college we may live, does it make us 'listened to or stared at,' as Celie suggests to Dorothea in 'Middlemarch?'

"Does the man next door, who is debating about sending his daughter to college, listen with a little sneer to our 'college English?' Do we like to hear our mothers perhaps and very young sisters innocently incorporate 'crazy about' and 'wild over' into their respectable vocabulary?

"Of course it is all right to us, just as a few mild words may be all right for our elder brothers—a kind of mark of masculinity, so to speak—but very horrible in girls. Well, are either all right or are both more or less poses and an adoption of the earmarks of a community to the exclusion of individuality?"

Peace Centenary Celebration.

Hearings on the Burton-Littleton bill, which would create a commission to represent the United States government and supervise the government's participation in the celebration in 1914-15 of the one hundredth anniversary of peace among English speaking peoples, have begun before the house foreign affairs committee and senate foreign relations committee. The event to be celebrated is the signing of the treaty of Ghent on Christmas eve, 1814, ending the war of 1812.

The village of Long Prairie has voted bonds in the sum of $7,000 to enable the town to make improvements at its lighting plant and to build a new water tower which was recently blown up, the vote being six to one in favor of the bond issue.

It is not known whether this is a warning to the court house officials or a weather prediction, but the Pequot Review, from which paper it is taken, is advised that the "rumer" will not be taken seriously until later in the season: "It is rumered that nearly all the county officers now holding office will have opposition this fall if they enter the race for re-election. It look's as though county politics would soon warm up."

The committee from a local church organization was turned down in their request to the school board at Aitkin that they prohibit dancing in the high school auditorium. The school board takes the view that young people will seek entertainment and that the place for providing such entertainment is at the school house where dancing may be regulated by the teachers and where all objectionable features and people may be eliminated. Some sense to the argument, too.

The village council of Pequot has entered into a contract with the Waterous Engine Works for a fire engine and 1,000 feet of hose. Under the new method water will be obtained from a system of cisterns in different parts of the village. With the establishment of this system a new and much lower insurance rate will be obtainable and the people generally in Pequot are commenting the council and the Commercial club of that place for their action in the matter. Heretofore there was practically no fire protection.

SOCIAL EVENTS

The last meeting of the Travel class will be held at the home of Prof. and Mrs. W. C. Cobb on Tuesday evening, May 14. Gentlemen are especially invited. Light refreshments will be served.

The nurses of the Northwestern hospital entertained a number of friends on Saturday evening. Games and music were the diversions of the evening, at the conclusion of which dainty refreshments were served.

The Bachelor Maids will be the guests of Miss May Belle Grewcox next Saturday evening at the Congregational church supper.

Committees of the Bachelor Maids are planning for a dance to be given on May 24. The matter of selecting the hall has not been decided at this date.

Wm. T. Topel, 602 3rd St., Bismark, N. D., tells of the benefits he derived from Foley Kidney Pills. "I uffered with intense pains in my back and sides, and my kidneys were very weak. I took Foley Kidney Pills and in a short time the pains left my body and my kidneys are well again. For this I am deeply grateful to Foley Kidney Pills." For sale by all druggists. mwf-w

CHOOSE NEW BIRTH STONES.

Jewelers Find That the Old Ones Are Hard to Make Up.

The movement on foot in the jewelry trade to establish a new standard list of natal stones is attracting widespread attention. It has been the contention of jewelers for some time that considerable business is lost because of the ugliness of some of the present birth stones and the fact that it is practically impossible to make a really beautiful ornament of several of them.

Among the changes suggested the following list contained in a recent letter to the Jewelers' Circular is generally conceded to be the most appropriate yet evolved. Abandoning the old tradition, the proposed list contains a color scheme suitable for the different seasons of the year. For December, January and February the color tones of the diamond, aquamarine and sapphire are suggested. March, April and May are represented by the different shades of green—peridot, olive and emerald; the summer months, June, July and August, by the tourmaline, ruby and garnet. For autumn vintage colors in the topaz, zircon and amethyst are suggested.

A Different Thing.

"Yes. My husband said to me yesterday, 'When your friend takes her hat off she looks ten years older.'"—Fliegende Blatter

Brainerd slammed into Little Falls with the idea of winning the game in the first inning and they did it, making 4 runs of the final 5 to 2 score which beat Little Falls. Erickson, first man to bat, got to first on a punk ball, worked to second, stole third and made home. With the bases full, Shefflo was hit by a pitched ball and a run was forced in, followed later by two more. Eight batters faced Dominick in Brainerd's half of the first inning. Pitcher Dominick and the entire Little Falls team braced up after the fatal initial potpourri of errors, but the damage was irreparable.

Phillips in the first and Griesch in the seventh innings brought in Little Falls only scores. Bud Roderick, Brainerd catcher, brought in the fifth tally for the locals by making first on a bunt and a wild throw to first and got home by a close shave. Lawson, Brainerd's new pitcher struck out 5 men while Dominick made 12 Brainerd batters fan the air. Lawson, on the other hand, made no wild pitches, caught and fielded several hot liners right off the bat, made nine assists and always possessed admirable control of the situation.

The day was ideal, only a few drops of rain falling. The attendance was a record one, the greatest seen in Brainerd, the crowd taking every seat in the grand stand and making a heavy fringe about the field. With such high class baseball as furnished by Little Falls and Brainerd in this game, the Central Minnesota baseball association need not lay awake nights figuring how to get the fans interested. It is reported that 898 paid admissions were recorded. Forty Little Falls autos and the trains brought, it is estimated over 100 Little Falls people to Brainerd. The score:

Benton County Wins

Special to Dispatch:

Sauk Rapids, Minn., May 12—Before a small but enthusiastic crowd of fans at the Sauk Rapids grounds on Sunday afternoon the Benton county team of the Central Minnesota Baseball league won its opening game from Royalton by a score of 8 to 3. The Benton county team outclassed their up-river neighbors from the start and after the second inning there was really no doubt as to what the final score would be.

The batteries for Benton county were Thielman and H. Hodgins and for Royalton Lamb and "Wild Bill" Hodgins.

In the last half of the eight inning Selke brought in the final score for Benton.

St. Cloud Inaugurates Season

Special to Dispatch:

St. Cloud, Minn., May 12—St. Cloud opened its schedule in the Central Minnesota Baseball association here today by shutting out Crosby by a score of 8 to 0. Harris was in the box for the Saints and held the visitors safe at all times. Only five scattering hits were made off of his delivery and he struck out 16. Lyle of Minneapolis, performed the slab work for the visitors and although he let the Saints down with four hits, errors and passed balls were responsible for six of St. Cloud's runs.

The day was by no means a propitious one for the inaugural of the base ball season. It was cold and the enthusiasm which usually marks an event of this kind was decidedly lacking. The 500 or more people who witnessed the game scarcely half-filled the grand stand and they did not warm up a little bit. The snappy plays that had been anticipated did not materialize and the lover of baseball found little of real merit. No one said anything about being "buncoed" and a few wits on the "top shelves" kept the fans in good humor with an occasional outburst of witticism. These remarks were by no means confined to the visitors and when St. Cloud turned a raw trick they "got theirs" too.

Little Falls High Wins

At Little Falls Saturday afternoon the Little Falls high school team defeated the Brainerd high by the score of 15 to 7. Stallman and Alderman pitched for the locals, Alderman striking out 8 men. That it was something of a batting festival is shown by the score sent in by the Little Falls Transcript reporter, L. D. Magee which shows that Little Falls secured 13 hits and Brainerd 14 hits. Errors were plentiful, Little Falls scoring 9 and Brainerd 13.

One of Dumas' Jokes.

Just for a joke Dumas once addressed a letter to "the greatest poet in Paris." The postoffice sent it to Lamartine, the idol of sentimental readers. He hesitated to open it and took it to Victor Hugo, who protested that his brother bard had far too humble an opinion of himself. After some conversation they agreed to decide by lot which of the two should open the envelope. The lot fell to Victor Hugo, who, taking out the letter, read, "My dear Alfred." It was written to Alfred de Musset.

Mrs. T. A. Town, wife of a well known citizen of Watertown, S. D., writes: "About four years ago I had a severe case of lagrippe and the doctor prescribed Foley's Honey and Tar Compound, and it soon overcame the lagrippe. When any of my four children have a cold, I never think of any cough medicine except Foley's Honey and Tar Compound for I can always depend upon its curing them." For sale by all druggists. mwf-w

COUNTY CONVENTION NOW IN SESSION

3:20 P. M.—Chairman R. R. Wise called the republican county convention to order at 2:30 p. m. and made a speech full of happy allusions. "We are all busy men in our various avocations, but not too busy to do our duty," said Mr. Wise. He read the call for the meeting and then suggested the selection of a temporary chairman. A. M. Opsahl nominated A. D. Polk, the nomination being seconded by F. E. Kenney, of Borden Lake. Mr. Polk was unanimously elected and made a short speech to the assembly.

C. A. Allbright nominated Judge J. T. Hale, of Deerwood, as temporary secretary and Mr. Hale was unanimously elected.

S. F. Alderman moved that a committee of three be appointed as a committee on credentials and the chair appointed C. A. Allbright, S. F. Alderman of Brainerd, and H. J. Kruse, of Crosby.

While the committee examined the credentials Col. Freeman Thorp, of Hubert, addressed the convention.

NOTES OF BRAINERD GAME

Dr. Holst brought a party of friends from Little Falls.

L. O. Magee, of the Little Falls Transcript; Ernest Westerberg. Theodore Peterson and Howard Price made the journey in an auto.

P. J. Vasaly, editor of the Little Falls Herald, was an interested observer. With him were Joe Diedrich and James Brown.

U. S. Marshal and Mrs. C. B. Buckman enjoyed the game very much. The former Little Falls congressman of the sixth district is a great fan.

Among the other Little Falls visitors were Mr. and Mrs. L. O. Wessel, Dr. and Mrs. Fortier, Mr. and Mrs. Jack Griesch, Mr. and Mrs. Ed. Weber, Miss Alma Burkel, Miss Josie Artonoski, Miss Renick, Irving Cornwall, George Cornwall, John Wetzel, Mr. and Mrs. John Cairns, Titus Plettle, Anton Kerich, Matt Raster, Herbert Dawson, Mr. and Mrs. Mike Klewel, Herman Pantzke, A. Larson, Miss Pearl Root, Louis LaFond, Arthur LaFond, Frank Moran, Miss Hazel Tourtillotte, Carl Johnson, Noah Raymond, Mr. and Mrs. George Wiewel, Mr. and Mrs. M. M. Buckman, Alton Larson.

Center Fielder H. Kalland distinguished himself in the first inning, catching a high fly near the left field fence, colliding with the fence in order to make the catch.

Trent made a pretty catch of Lauerman's long hit and retired Little Falls in the third inning.

Lawson hurt his hand in the fifth inning, stopping a hot liner right off the bat, but he kept right on playing.

Dominick struck out three Brainerd boys in the fifth inning.

In the sixth inning Lawson struck out two men. The bases were full and Shefflo caught Phillip's hit.

H. Kalland got a crack on the bean in the sixth inning.

Before the game an excited Little Falls man flourished $50 in front of the grand stand, betting on his team. No one took up the bet. After the disastrous first inning he shoved the money in his pocket and buttoned it down tight. "If that man's wife was here," said a lady, "she would never let him flourish so much money around."

SOCIAL EVENTS

The last meeting of the Travel class will be held at the home of Prof. and Mrs. W. C. Cobb on Tuesday evening, May 14. Gentlemen are especially invited. Light refreshments will be served.

The nurses of the Northwestern hospital entertained a number of friends on Saturday evening. Games and music were the diversions of the evening, at the conclusion of which dainty refreshments were served.

The Bachelor Maids will be the guests of Miss May Belle Grewcox next Saturday evening at the Congregational church supper.

Committees of the Bachelor Maids are planning for a dance to be given on May 24. The matter of selecting the hall has not been decided at this date.

Wm. T. Topel, 602 3rd St., Bismark, N. D., tells of the benefits he derived from Foley Kidney Pills. "I uffered with intense pains in my back and sides, and my kidneys were very weak. I took Foley Kidney Pills and in a short time the pains left my body and my kidneys are well again. For this I am deeply grateful to Foley Kidney Pills." For sale by all druggists. mwf-w

CHOOSE NEW BIRTH STONES.

Jewelers Find That the Old Ones Are Hard to Make Up.

The movement on foot in the jewelry trade to establish a new standard list of natal stones is attracting widespread attention. It has been the contention of jewelers for some time that considerable business is lost because of the ugliness of some of the present birth stones and the fact that it is practically impossible to make a really beautiful ornament of several of them.

Among the changes suggested the following list contained in a recent letter to the Jewelers' Circuular is generally conceded to be the most appropriate yet evolved. Abandoning the old tradition, the proposed list contains a color scheme suitable for the different seasons of the year. For December, January and February the color tones of the diamond, aquamarine and sapphire are suggested. March, April and May are represented by the different shades of green—peridot, olive and emerald; the summer months, June, July and August, by the tourmaline, ruby and garnet. For autumn vintage colors in the topaz, zircon and amethyst are suggested.

A Different Thing.

Brainerd slammed into Little Falls with the idea of winning the game in the first inning and they did it, making 4 runs of the final 5 to 2 score which beat Little Falls. Erickson, first man to bat, got to first on a punk ball, worked to second, stole third and made home. With the bases full, Shefflo was hit by a pitched ball and a run was forced in, followed later by two more. Eight batters faced Dominick in Brainerd's half of the first inning. Pitcher Dominick and the entire Little Falls team braced up after the fatal initial potpourri of errors, but the damage was irreparable.

Phillips in the first and Griesch in the seventh innings brought in Little Falls only scores. Bud Roderick, Brainerd catcher, brought in the fifth tally for the locals by making first on a bunt and a wild throw to first and got home by a close shave. Lawson, Brainerd's new pitcher struck out 5 men while Dominick made 12 Brainerd batters fan the air. Lawson, on the other hand, made no wild pitches, caught and fielded several hot liners right off the bat, made nine assists and always possessed admirable control of the situation.

The day was ideal, only a few drops of rain falling. The attendance was a record one, the greatest seen in Brainerd, the crowd taking every seat in the grand stand and making a heavy fringe about the field. With such high class baseball as furnished by Little Falls and Brainerd in this game, the Central Minnesota baseball association need not lay awake nights figuring how to get the fans interested. It is reported that 898 paid admissions were recorded. Forty Little Falls autos and the trains brought, it is estimated over 100 Little Falls people to Brainerd. The score:

Benton County Wins

Special to Dispatch:

Sauk Rapids, Minn., May 12—Before a small but enthusiastic crowd of fans at the Sauk Rapids grounds on Sunday afternoon the Benton county team of the Central Minnesota Baseball league won its opening game from Royalton by a score of 8 to 3. The Benton county team outclassed their up-river neighbors from the start and after the second inning there was really no doubt as to what the final score would be.

The batteries for Benton county were Thielman and H. Hodgins and for Royalton Lamb and "Wild Bill" Hodgins.

In the last half of the eight inning Selke brought in the final score for Benton.

St. Cloud Inaugurates Season

Special to Dispatch:

St. Cloud, Minn., May 12—St. Cloud opened its schedule in the Central Minnesota Baseball association here today by shutting out Crosby by a score of 8 to 0. Harris was in the box for the Saints and held the visitors safe at all times. Only five scattering hits were made off of his delivery and he struck out 16. Lyle of Minneapolis, performed the slab work for the visitors and although he let the Saints down with four hits, errors and passed balls were responsible for six of St. Cloud's runs.

The day was by no means a propitious one for the inaugural of the base ball season. It was cold and the enthusiasm which usually marks an event of this kind was decidedly lacking. The 500 or more people who witnessed the game scarcely half-filled the grand stand and they did not warm up a little bit. The snappy plays that had been anticipated did not materialize and the lover of baseball found little of real merit. No one said anything about being "buncoed" and a few wits on the "top shelves" kept the fans in good humor with an occasional outburst of witticism. These remarks were by no means confined to the visitors and when St. Cloud turned a raw trick they "got theirs" too.

Little Falls High Wins

At Little Falls Saturday afternoon the Little Falls high school team defeated the Brainerd high by the score of 15 to 7. Stallman and Alderman pitched for the locals, Alderman striking out 8 men. That it was something of a batting festival is shown by the score sent in by the Little Falls Transcript reporter, L. D. Magee which shows that Little Falls secured 13 hits and Brainerd 14 hits. Errors were plentiful, Little Falls scoring 9 and Brainerd 13.

One of Dumas' Jokes.

Just for a joke Dumas once addressed a letter to "the greatest poet in Paris." The postoffice sent it to Lamartine, the idol of sentimental readers. He hesitated to open it and took it to Victor Hugo, who protested that his brother bard had far too humble an opinion of himself. After some conversation they agreed to decide by lot which of the two should open the envelope. The lot fell to Victor Hugo, who, taking out the letter, read, "My dear Alfred." It was written to Alfred de Musset.

Mrs. T. A. Town, wife of a well known citizen of Watertown, S. D., writes: "About four years ago I had a severe case of lagrippe and the doctor prescribed Foley's Honey and Tar Compound, and it soon overcame the lagrippe. When any of my four children have a cold, I never think of any cough medicine except Foley's Honey and Tar Compound for I can always depend upon its curing them." For sale by all druggists. mwf-w

COUNTY CONVENTION NOW IN SESSION

3:20 P. M.—Chairman R. R. Wise called the republican county convention to order at 2:30 p. m. and made a speech full of happy allusions. "We are all busy men in our various avocations, but not too busy to do our duty," said Mr. Wise. He read the call for the meeting and then suggested the selection of a temporary chairman. A. M. Opsahl nominated A. D. Polk, the nomination being seconded by F. E. Kenney, of Borden Lake. Mr. Polk was unanimously elected and made a short speech to the assembly.

C. A. Allbright nominated Judge J. T. Hale, of Deerwood, as temporary secretary and Mr. Hale was unanimously elected.

S. F. Alderman moved that a committee of three be appointed as a committee on credentials and the chair appointed C. A. Allbright, S. F. Alderman of Brainerd, and H. J. Kruse, of Crosby.

While the committee examined the credentials Col. Freeman Thorp, of Hubert, addressed the convention.

NOTES OF BRAINERD GAME

Dr. Holst brought a party of friends from Little Falls.

L. O. Magee, of the Little Falls Transcript; Ernest Westerberg, Theodore Peterson and Howard Price made the journey in an auto.

P. J. Vasaly, editor of the Little Falls Herald, was an interested observer. With him were Joe Diedrich and James Brown.

U. S. Marshal and Mrs. C. B. Buckman enjoyed the game very much. The former Little Falls congressman of the sixth district is a great fan.

Among the other Little Falls visitors were Mr. and Mrs. L. O. Wessel, Dr. and Mrs. Fortier, Mr. and Mrs. Jack Griesch, Mr. and Mrs. Ed. Weber, Miss Alma Burkel, Miss Josie Artonoski, Miss Renick, Irving Cornwall, George Cornwall, John Wetzel, Mr. and Mrs. John Cairns, Titus Plettle, Anton Kerich, Matt Raster, Herbert Dawson, Mr. and Mrs. Mike Kiewel, Herman Pantzke, A. Larson, Miss Pearl Root, Louis LaFond, Arthur LaFond, Frank Moran, Miss Hazel Tourtillotte, Carl Johnson, Noah Raymond, Mr. and Mrs. George Wiewel, Mr. and Mrs. M. M. Buckman, Alton Larson.

Center Fielder H. Kalland distinguished himself in the first inning, catching a high fly near the left field fence, colliding with the fence in order to make the catch.

Trent made a pretty catch of Lauerman's long hit and retired Little Falls in the third inning.

Lawson hurt his hand in the fifth inning, stopping a hot liner right off the bat, but he kept right on playing.

Dominick struck out three Brainerd boys in the fifth inning.

In the sixth inning Lawson struck out two men. The bases were full and Shefflo caught Phillip's hit.

H. Kalland got a crack on the bean in the sixth inning.

Before the game an excited Little Falls man flourished $50 in front of the grand stand, betting on his team. No one took up the bet. After the disastrous first inning he shoved the money in his pocket and buttoned it down tight. "If that man's wife was here," said a lady, "she would never let him flourish so much money around."

PRESBYTERIAN CHURCH AT CROSBY

Contractor E. W. Hallett has the Foundation of the New Church Completed

BUILDING WILL COST $4,000

Crosby Signs a New Pitcher—Other Baseball and Social News of the Town

Crosby, Minn., May 10—One of the great improvements noticeable in Crosby is the building of the Presbyterian church near Cross avenue. The dimensions of the church are 28 by 47 feet. It will have a lecture room, auditorium, pastor's study and in the basement, which has a nine foot ceiling, there will be three rooms of suitable size. It is in the basement that most of the social gathering of the church societies will be held. The money for the building $4,000, has been raised. George W. Crosby donated two lots to the church. The contractor, E. W. Hallett, expects to finish the church within the next two months.

Rev. W. H. Elges is the pastor in charge. He has congregations in Deerwood, Crosby and Cuyuna and in the five Sunday schools over which he has supervision are 300 scholars.

A cement walk is being laid to the Ingalls Motor Boat Company dock.

The Ladies Aid society of the Presbyterian church met with Mrs. Edward Krueger on Wednesday afternoon.

Isaac Sall, who was at Port Arthur, Edmonton, Calgary and Dauphin, Canada, has returned. All these places, he says, are overcrowded and over-boomed and he thought Crosby and the Cuyuna range looked good enough for him.

Lyle is the name of the new pitcher signed by Crosby.

On next Sunday the Manganese team will play the Crosby second nine.

R. R. Hudson is at Duluth on business.

A. J. McLennan, secretary of Geo. H. Crosby, was in town this week.

Photographers were thick around the ore train. Among those taking pictures were Charles S. Roulo, Amundson, Smith of Cloquet and Brindos of Deerwood. Each one eyed the other to see who got the best point of vantage.

LOERCH ITEMS

The Sunday school that is held in the school house in Dist. No. 5, was well attended last Sunday. Rev. Smith, of Brainerd, was a visitor and he was much pleased with the work.

Oscar Dullum made a flying trip to the city Saturday.

The farewell party given to Mrs. Warren Lyshiedet Saturday evening, was well attended.

The school closed in Dist. No. 5 on Friday, and the children spent the day pleasantly at a picnic given by the teacher, Miss Helen Taylor.

Oscar Dullum stayed at A. H. Aspholm's after Sunday school on Sunday.

Frank Miller is having wood floated down the stream.

GENTLE REPROOF MOST SUCCESSFUL

How St. Peter Was Punished For Denying His Lord.

Some Mistaken Methods Called to Attention Regarding Evangelistic Work. Undershepherds Admonished to Feed the Flock of God.

PASTOR RUSSELL

Washington, D. C., May 12.—"Simon, son of Jonas, lovest thou Me more than these?" —John xxi, 15-17.

The context shows that these words were addressed by the Redeemer to St. Peter on the occasion of His third manifestation to His disciples after His resurrection. This was presumably three or four weeks after the Master's resurrection from the dead.

During all those thirty days the mental attitude of all the Apostles and the other disciples can be better imagined than described. They were perplexed; they had had evidences of the Master's resurrection; they had had the Scriptures called to their attention which proved that this was necessary and that God had previously so arranged. They had hoped for further conferences with Jesus and that He would tell them definitely what to do.

Instead, left to themselves, they were thoroughly disheartened. They had left all to follow Him, to tell the people that He was the long promised Messiah, and that He would soon set up His Kingdom, which would bring blessings to Israel, and, through Israel, to all the families of the earth, in harmony with the Abrahamic Covenant. Now apparently all these hopes were dashed.

They Toiled All Night.

Their first night was a discouraging one—they caught nothing. In the morning they beheld a stranger on the shore. The stranger suggested casting the net on the other side of the boat. And although the suggestion seemed foolish, having been so unsuccessful, yet they did so, and immediately the net was filled with fishes! It did not require long for them to learn the lesson. They knew instinctively that the unknown stranger was their Master.

All interest had just centered in the fishing business, but now boats, fish and nets all lost their value in the estimation of these fishermen! Here was their risen Lord, for whose third appearance they had been waiting now nearly three weeks! Fearing that the Master would disappear before he could get to Him, St. Peter plunged into the sea and swam ashore. To his surprise the stranger already had fish, and had them cooked, and all were invited to join in the breakfast on the shore of Galilee.

The stranger had not the clothing by which they had known their Lord, neither did He have the marks of the nails in His hands and feet, that they might thus identify Him. This was a different manifestation. They knew Him as did those with whom He walked to Emmaus who recognized Him in the blessing of the bread, and not by His features or clothing or wounds. They recognized that none other than He could perform such a miracle.

"Lovest Thou Me More?"

The stranger addressed St. Peter particularly, saying, "Lovest thou Me more than these"—these boats and nets? St. Peter answered, "Lord, Thou knowest that I affectionately love Thee." He used a word expressing fondness of love. Jesus replied, "Feed my lambs."

Then came the question a second time, "Simon, son of Jonas, lovest thou Me?" A great pressure was felt by St. Peter. Why did the Master so particularly question his love? St. Peter answered, "Lord, Thou knowest that I affectionately love Thee." Jesus this time replied, "Tend My sheep." For the third time Jesus said to Peter, "Simon, son of Jonas, *dost thou* affectionately love Me?" Here Jesus used the same word that St. Peter had used, as though He questioned the affection and depth of St. Peter's love. Ah! the third time must have sent the memory of Peter back to the scene in Pilate's Judgment Hall, when he denied his Master the third time. And now Jesus for the third time had asked him respecting his love, and whether it was really a love of affection! St. Peter's choking reply was, "Lord, Thou knowest all things! Thou *knowest* that I affectionately love Thee!" The Lord's reply was, "Feed My sheep."

Our Mistaken Methods.

Have not Christians in general overlooked this important lesson, namely, that the chief work of the ministers and under-shepherds of the Lord's flock during this Age is to *"feed the* flock?" Is it not true that comparatively *little* feeding is being done? On the contrary, the thought usually received by new converts is, Now you are saved, go, evangelize, and bring others to Christ—especially bring money, for with plenty of it we can convert the world.

The advice to St. Peter should be heeded. The *"lambs"* should be *fed* until they become *"sheep."* The *sheep* should be *tended*, cared for, guided, instructed; and the sheep should also be *fed* with the stronger "meat" than that which the lambs could appropriate.

A CLEW TO HAPPINESS.

If it be my lot to crawl, I will crawl contentedly; if to fly, I will fly with alacrity, but as long as I can possibly avoid it I will never be unhappy. If with a pleasant wife, three children and many friends who wish me well I cannot be happy I am a very silly, foolish fellow and what becomes of me is of very little consequence.—Sydney Smith.

REMODEL ARMY ORGANIZATION

The Militia to Be Taken Over In Time of War.

PLANS ON RADICAL LINES.

Washington Conference of Military Board Was Forced by the Situation Arising From the Demand For Intervention In Mexico.

One of the most important military conferences in years was recently held in Washington, and as a result of it the organization of the United States army in time of war will be wholly remodeled on lines different from anything hitherto known in the history of the service.

The conference was participated in by Secretary Stimson and Major General Leonard Wood and the national militia board, consisting of Brigadier General C. P. Boardman of Wisconsin, Brigadier General W. E. Finzer of Oregon, Major General Thomas J. Stewart of Pennsylvania, Colonel W. S. Metcalf of Kansas and Major H. S. Berry of Tennessee.

The subject before the board was the assimilation of the militia of the states by the regular army in service outside the limits of the United States, and it was forced into consideration by questions arising several months ago in connection with the demand at that time for intervention in Mexico.

The menace to Americans in communities along the border from engagements between the regulars and the insurrectos on Mexican soil had from time to time brought up the question of utilizing state troops to protect American citizens and the further question whether such state troops could be taken across the international boundary into Mexico as United States forces. The broader question also as to what use could be made of the militia generally as federal troops in case of foreign war was involved.

Decision a Surprise.

The question being laid finally before the attorney general for his opinion, he decided that the militia of a state could not be used as a United States military force outside the boundaries of the country. This decision was received with a good deal of surprise and embarrassment.

The secretary of war and his advisers began at once to deliberate on some measure of legislation by which the gap between the regular army and the militia in case of foreign war might be closed. The militia has been built up through many years of hard work on the part of the war department and the army, and congress has provided money liberally for its maintenance and development. The plan finally devised by Secretary Stimson was to make it possible by law for congress to authorize the federal government to reach out and take in the state militia organizations and place them bodily in the United States army provisionally.

There would thus be three competent forces embraced in the United States army in time of war—the regulars, the provisional United States troops from the militia and volunteers. A draft was made of a law to authorize this transfer of the militia to the regular forces, and it was submitted to various militia officers throughout the country, and it met with general approval.

There was, however, a demand on the part of some militia officers that officers of the state organizations should enter the United States army with the rank held by them in the state organization. This made necessary the conferences recently held. The militia board has drawn up another bill adhering mainly to the lines of the secretary's plan, but working out more in detail these matters of organization.

Bill Will Become Law.

The board met at the home of the secretary, and it was practically decided that the measure will receive the approval of the board. There is little doubt that it will become law.

The provisions of the new bill deal with the question of rank by laying down the general principle that militia organizations shall be taken over by the United States tactically—that is, by batteries, companies, regiments, brigades or divisions. Officers would only be taken, therefore, as they were part in the tactical organization and then subject to the army regulations as to military and physical qualifications.

An illustration is afforded by the statement of a former member of the national militia board who is an adjutant general of the militia of a western state and holds a commission as major general. He says he has kept a vacancy in the grade of lieutenant colonel in the militia of his state so that if it were called into the federal service to go abroad he would at once seek a commission as lieutenant colonel for service in the regiment that might be called.

One of the features of the organization proposed under the new merger of the militia with the regular army provides for a chief of staff for every division, who shall be a regular army officer.

The bill makes no innovations as to matters of pay. The law now provides fully on that subject and places the militia on the same footing with the regular army when in service.

"One of the curses of the natives of central Africa," said a Scottish missionary, Mr. Crawford, "is smoking hemp. It is worse than opium. I knew a case where a native tied his wife up in a parcel and sold her for a smoke of hemp. I was told of the sensations of hemp smokers by a chief who had conquered the habit. It causes a peculiar glazelike enamel to come into the eyes and has the effect of making a man quite friendly one moment and the next he would like to stab you."—London Standard.

"At the time I received your letter we were expecting baby's death daily. She had whooping cough, measles and was teething at the same time. I believe that if she had been anything but a Mellin's Food baby, she would have died. Some days we succeeded in getting her to take one ounce of food and some days three ounces for about two weeks, but not a day passed without her getting some food, and by this means we succeeded in keeping life in her until she was strong enough to take more. Now she is rosy, fat and walking."

Pounds and Francs.

A New York banker has a son who is studying art in Europe. According to the New York Evening Sun, he recently received a cable dispatch from his London bank saying: "Your son has drawn a sight draft on you for 20,000. Shall we honor it?" The banker's reply was a classic: "If it's those little French things, all right; if it's pounds, send him home."

BARROWS

The new mining town on the Cuyuna range, offers splendid opportunities for investment and for the establishment of business in various lines. This town is located in the richest part of the range, adjoining the Barrows mine, which will ship ore this season, and where a large force of men is now employed in putting down the third shaft, two being already completed. A number of other mines adjacent to the townsite will be opened up, making Barrows one of the greatest mining centers on the range. Streets are graded, cement sidewalks in, and buildings are going up rapidly. Lots are now offered at from $150 to $400 on the partial payment plan. Buy now while you can buy at the first offered price; get located in a live new town and prosper with the development of the country.

A few years ago lots that were sold in Hibbing, Virginia and Chisholm at the prices we are now asking are worth today several thousand dollars. For further information aply to

Crosby Signs a New Pitcher—Other Baseball and Social News of the Town

Crosby, Minn., May 10—One of the great improvements noticeable in Crosby is the building of the Presbyterian church near Cross avenue. The dimensions of the church are 28 by 47 feet. It will have a lecture room, auditorium, pastor's study and in the basement, which has a nine foot ceiling, there will be three rooms of suitable size. It is in the basement that most of the social gathering of the church societies will be held. The money for the building $4,000, has been raised. George W. Crosby donated two lots to the church. The contractor, E. W. Hallett, expects to finish the church within the next two months.

Rev. W. H. Elges is the pastor in charge. He has congregations in Deerwood, Crosby and Cuyuna and in the five Sunday schools over which he has supervision are 300 scholars.

A cement walk is being laid to the Ingalls Motor Boat Company dock.

The Ladies Aid society of the Presbyterian church met with Mrs. Edward Krueger on Wednesday afternoon.

Isaac Sall, who was at Port Arthur, Edmonton, Calgary and Dauphin, Canada, has returned. All these places, he says, are overcrowded and over-boomed and he thought Crosby and the Cuyuna range looked good enough for him.

Lyle is the name of the new pitcher signed by Crosby.

On next Sunday the Manganese team will play the Crosby second nine.

The militia board has drawn up another bill adhering mainly to the lines of the secretary's plan, but working out more in detail these matters of organization.

Bill Will Become Law.

The board met at the home of the secretary, and it was practically decided that the measure will receive the approval of the board. There is little doubt that it will become law.

The provisions of the new bill deal with the question of rank by laying down the general principle that militia organizations shall be taken over by the United States tactically—that is, by batteries, companies, regiments, brigades or divisions. Officers would only be taken, therefore, as they were part in the tactical organization and then subject to the army regulations as to military and physical qualifications.

An illustration is afforded by the statement of a former member of the national militia board who is an adjutant general of the militia of a western state and holds a commission as major general. He says he has kept a vacancy in the grade of lieutenant colonel in the militia of his state so that if it were called into the federal service to go abroad he would at once seek a commission as lieutenant colonel for service in the regiment that might be called.

One of the features of the organization proposed under the new merger of the militia with the regular army provides for a chief of staff for every division, who shall be a regular army officer.

The bill makes no innovations as to matters of pay. The law now provides fully on that subject and places the militia on the same footing with the regular army when in service.

"One of the curses of the natives of central Africa," said a Scottish missionary, Mr. Crawford, "is smoking hemp. It is worse than opium. I knew a case where a native tied his wife up in a parcel and sold her for a smoke of hemp. I was told of the sensations of hemp smokers by a chief who had conquered the habit. It causes a peculiar glazelike enamel to come into the eyes and has the effect of making a man quite friendly one moment and the next he would like to stab you."—London Standard.

babies resist disease.

"At the time I received your letter we were expecting baby's death daily. She had whooping cough, measles and was teething at the same time. I believe that if she had been anything but a Mellin's Food baby, she would have died. Some days we succeeded in getting her to take one ounce of food and some days three ounces for about two weeks, but not a day passed without her getting some food, and by this means we succeeded in keeping life in her until she was strong enough to take more. Now she is rosy, fat and walking."

Pounds and Francs.

A New York banker has a son who is studying art in Europe. According to the New York Evening Sun, he recently received a cable dispatch from his London bank saying: "Your son has drawn a sight draft on you for 20,000. Shall we honor it?" The banker's reply was a classic: "If it's those little French things, all right; if it's pounds, send him home."

BARROWS

The new mining town on the Cuyuna range, offers splendid opportunities for investment and for the establishment of business in various lines. This town is located in the richest part of the range, adjoining the Barrows mine, which will ship ore this season, and where a large force of men is now employed in putting down the third shaft, two being already completed. A number of other mines adjacent to the townsite will be opened up, making Barrows one of the greatest mining centers on the range. Streets are graded, cement sidewalks in, and buildings are going up rapidly. Lots are now offered at from $150 to $400 on the partial payment plan. Buy now while you can buy at the first offered price; get located in a live new town and prosper with the development of the country.

A few years ago lots that were sold in Hibbing, Virginia and Chisholm at the prices we are now asking are worth today several thousand dollars. For further information aply to
